The Built Environment Commitment
Delivering low carbon and resource efficiency

“We commit to take action that contributes to a low carbon, resource efficient built environment”

Innovate UK is the new name for the Technology Strategy Board

Annual investment into built environment innovation
Innovate UK commits to a multi-million pound programme of investment to accelerate innovation on business-led initiatives that include the ambitions of the Industrial Strategy for Construction, sustainability, a low-carbon built environment, Resource Efficiency and Circular Economy.

Our delivery targets are embedded in our annual Delivery Plan. Our 2014-15 Delivery Plan sets out how this year we are investing up to:

- £12.5m into low impact buildings;
- £63m into urban living; and
- £6m into resource efficiency.
